

Home-made Christmas: Rachel's Wreaths

Sunday 28th November

10am – 4.30pm. £65. Max 6. Lunch, refreshments & materials included.

Rachel is back again to show us how to make beautiful Christmas wreaths from natural home-grown seasonal materials. In last year's workshop we all made the most beautiful wreaths which were much more luxurious than any wreaths sold in the shops.

Rachel provided the ring and moss but most of the

material was collected from our garden in the morning and made into wreaths in the afternoon. All types of material can be woven into the wreath, not just holly – I used lavender in mine and it looked and smelled beautiful! The wreath is yours to take home and

proudly hang on your door. A warming lunch of slow-roasted vegetables from our garden, apple crumble with cream and a glass of mulled wine will complete this very special day. www.catkinflowers.co.uk
