

Home-made Christmas: Stained Glass Christmas Decorations – Wednesday 8th December

10am – 4.30pm. £65. Max 5. Lunch, refreshments & materials included.

Enjoy creating your own Christmas decorations using the copper foiling method of stained glass construction. You will learn to cut glass to a pattern and copperfoil, solder

and polish it ready for display at home. No experience is necessary and all the tools, safety equipment, patterns and a selection of sparkling glass will be provided. This course is taught by Gillian Wing whose love of stained glass dates back to when she was introduced to the craft at a studio which specialised in producing pieces

for use in colour therapy healing work. Learn this beautiful craft and create something special at this wonderful time of year. A lovely lunch will be served with a festive colourful theme. www.strawberryglass.co.uk
